

Futureshock, On My Mind

When the blueness follows evening
And the darkness takes control
And we're waiting for anybody
Follow you lonesome down the road?

I got you on my mind
I got you on my mind
I got you on my mind
I got you on my mind
Only you on my mind

When the journey's never ending
And the road is far from tiresome
And your feet they walk to anybody
Take away that toil and trouble

I got you on my mind
I got you on my mind
Only you on my mind

There aint nobody
Unless there's you
And there aint no way I'm gonna fall
If you're there to see me through

And I'm the lonely ocean coz it aint got no shore
And I'm the lonely ocean it aint got no shore

I got you on my mind
I got you on my mind
I got you on my mind
I got you on my mind

I got you on my mind
I got you on my mind
