

# G-Eazy, Back To What You Knew

I knew  
These are all the things you would do  
You call me a monster  
But this is what you turned me into  
When you went right back to what you knew  
You went right back to what you knew  
You tore me in two  
When you made my worst fear come true  
When you went right back what you knew

I think we might be over this time  
I thought that we was over last time  
At least that we be sobre this time  
So we can maybe finallyt find some clousure this toime  
You really fucked me over this time  
But i guess at least we came closer this time  
We though that it would work cause we was older this tme  
Humm humm  
You realyy fucked me over this time  
I mean i guess we came closer this time  
At least we came closer this time

I knew  
These are all the things you would do  
You call me a monster  
But this is what you turned me into  
When you went right back to what you knew  
You went right back to what you knew  
You tore me in two  
When you made my worst fear come true  
When you went right back what you knew

I a mat the end of my rope, i feel it sinkin'  
Like there's a hole in this boat, i need some medicine  
Thake heavy doses to cope  
But it's all your fault  
You got us both in the cold  
This fight is over  
I think we're both on the ropes  
I can;t swing any more  
Got no more punches to throw  
And i wish this shit would just go away  
Would just go away  
Would just go away  
But thet shit sn't how love works  
I guess that's wht tehy say love hurts  
In pain and i ain't felt nothin' worse

I knew  
These are all the things you would do  
You call me a monster  
But this is what you turned me into  
When you went right back to what you knew  
You went right back to what you knew  
You tore me in two  
When you made my worst fear come true  
When you went right back what you knew
