

# G-Eazy, Vengeance On My Mind (feat. Dana)

I feel no pain  
Vengeance on my mind, all night, all day  
I feel my way  
Once I get on and on, I'll say

Clear visions with my eyes closed  
Where I wanna take this to, is where my mind goes  
The road less traveled is the high road  
I been knocked down, but every time I rose  
Cause I can move a mountain with my bare hands  
Just need a fair chance, I never let them down  
I never settled down, I came to get the crown  
Avoided shortcuts, all I did was have a better sound  
See all I did to make it, was stay extremely patient  
I never been complacent, I never did get jaded  
I lived inside my studio, the room was never vacant  
I'm unparalleled, I'm sorry, we are not adjacent  
It's just the way I am, just gotta make a plan  
I think of what I want and get it, every day I am  
Chasing dreams but never sleep, see how awake I am?  
How you gon' win if you never try to take a chance?

I feel no pain  
Vengeance on my mind, all night, all day  
I feel my way  
Once I get on and on, I'll say  
I feel no plan  
Yes I feel no pain

The underdog, I emerge from the fog  
Lookin' for revenge, I been workin' all Summer long  
They know what I came for, now why would I change for it  
If I ain't doin' it right, then what the critics singin' praise for?  
This is what I trained for, what the people pay for  
Music got realer, started channelin' my pain more  
Greats are the only ones I ever try to aim for  
Ready to convince all of you haters if you ain't sure  
There's no mistake about it, there's nothin' fake about it  
You say I'll be at the event, well then, it may get crowded  
You think I'm ever givin' up? For pit's sake, I doubt it  
I'm in my element tonight and you can't take me out it  
And I said, fuck a comfort zone and started breakin' out it  
This music's keepin' me alive, I swear I ache without it  
The place I'm from made me who I am, just think about it  
Can never take it out of me, can only take me out it
