

# G Girls, Call The Police

Got my heels so high in the satellite  
Got me tip-toe walking on the moonlight  
Who's there, who's not, who's busy, busy  
Who cares?

You don't, you're with me, with me!  
Better walk, hit the lights, finger-licking good  
We're tricking with the bouncers, it's all good  
Who's love, who's there, who's itty bitty?  
Who's drunk, who's not, you're silly, silly

These boys running from me, I'm cold as ice  
And these boys can come if they're lonely  
They can roll the dice  
These boys, they don't know me, like kryptonite  
Coz these toys come with a warning, warning  
(Warning, warning)

Somebody better call the police on me  
Somebody better call the police  
Somebody better call the police on me  
Somebody better call the police, I'm so hot  
Somebody better call the police on me  
Somebody better call the police, I'm hot, I'm hot  
Somebody better call the police on me  
Somebody better call the police, I'm so hot

Get your hands up high like a bonfire  
Bad girl with a tattoo, bad boy  
Who's there, who's not, who's busy, busy  
Who care? I don't, they're with me, with me  
Just all these fans can't get enough  
They crawl, they shout, they push it up  
Who's creep, who's clap, who's silly, silly?  
Who's drunk, who's not, you'll silly, silly

These boys running from me, I'm cold as ice  
And these boys can come if they're lonely  
They can roll the dice  
These boys, they don't know me, like kryptonite  
Coz these boys come with a warning, warning  
(Warning, warning)

Somebody better call the police on me  
Somebody better call the police  
Somebody better call the police on me  
Somebody better call the police, I'm so hot  
Somebody better call the police on me  
Somebody better call the police, I'm hot, I'm hot  
Somebody better call the police on me  
Somebody better call the police, I'm so hot

I'm not fun, I'm just dangerous  
It's not easy when you ride with me  
Come get some, it's so obvious  
Freeze, unfreeze, call them for me!

Somebody better call the police on me  
Somebody better call the police  
Somebody better call the police on me  
Somebody better call the police, I'm so hot  
Somebody better call the police on me  
Somebody better call the police, I'm hot, I'm hot  
Somebody better call the police on me  
Somebody better call the police, I'm so hot
