

# G.O.D., Riders Of Hell & Heaven

Riders of Hell and Heaven  
Covering the Earth and Skies  
With the shine and sharper wings  
Lightings and fire from the eyes  
On black and heavy horses  
That they never look behind  
Storm and thunders, Earth is shacking  
When the black riders are passing!  
Riders of Hell!!!  
They were named by the ancient ages  
The apocalyptic Hell riders  
Breaking the times of GOD  
Riding against the land  
Over the graves and seasons  
Letting behind a tale  
A tale of horror nightmares  
And other stories about fear!  
Riders of hell!!!  
Fear despair, spoken by other legends  
The apocalyptic hell riders  
Screaming the song of evil  
Flying against the lands  
Under a full moon spells  
Making to ring the bells  
The bells of judgment day  
They are the riders of  
Hell. Heaven  
Angels... Please put the hands on me.  
Riders... Please put the blades on them.  
Angels... Please take the sins from me.  
Riders... Please take the souls of them, right now!!!
