

# Gabe Lopez, Make Me A Star

Everybody's waitin for your next step, next move,  
Everybody's waitin for your new thing to prove.  
What's to figure out?  
What's with all this doubt?  
Supermodels don't always make the best music.

Chorus:

And make me a star,  
Make me a star,  
If you believe in what I'm singing,  
What I'm saying,  
Make it happen.  
Make me a star,  
Make me a star,  
If you believe in what I'm singing,  
What I'm saying.

Everybody's askin bout the new CD,  
Everybody's askin what it means for me.  
Where's it on the charts?  
Love the CD art.  
So, go and buy a copy tell all of your friends.

Chorus

Producers get better, artists get older,  
If you're in your twenties you can stop waiting to be discovered,  
So don't get older just lie the years away,  
Everyone does it anyway,  
Be part of the team.

Everybody's waitin for your next step, next move,  
Everybody's waitin for your new thing to prove.  
What's to figure out?  
What's with all this doubt?  
Supermodels don't always make the best music.

Chorus

Everybody's waitin for the new thing,  
Everybody's waitin for the new thing,  
Everybody is waitin for something.

Everybody's waitin now
