

Gabe Lopez, Push & Pull

I know so i wont
ill turn around and i will go
you chose and its no
youre sure but are you really though

cause each time i try to find somebody new
you quickly try to put my focus on you
and each time i try to give myself space
you find a way to bring me back to this place

chorus:
why do you do what you do to me
why do you take and make me crazy
you push and pull me

im home all alone
im thinking about you though
you know and it show
i hope you change but you dont, you dont

and each time i try to find somebody new
you find a way to put my focus on you
and each time i try to move on my way
you find a way to make me stay

chorus

you push and pull me
each time it throws me
you know the way to make me wait
you push and pull me
and you control me
so i cant turn away

I know so i wont
ill turn around and i will go
you chose and its no
youre sure but are you really though

and each time i try to find somebody new
you quickly try to put my focus on you
and each time i try to give myself space
you quickly find a way to bring me back to this place

chorus
