

# Gabriel Rios, Badman

Carlito made a trip to a horrible planet  
When he came back well  
he let em have it  
A big rhyme sticking like a piece of bone  
from a chicken  
The kind you suck with your mittens on  
cause its cold  
and that s all he knows  
how to do is rock and make heads roll  
he do it to you  
he do it to me  
he do it to the world like a color TV  
chorus:  
Bad Man  
coming back down from the days of old  
Bad Man  
swinging the microphone(2X)  
Kiss the early morning  
the early light  
and watch your better day become the night  
coming after you like a bunch of peppers  
split down the middle like  
dirty records  
So love the leppers eat the peppers raw  
Suck the seeds in let your body fall  
Look for the maker before the maker sees you grown  
wings  
Let me tell you about them dirty things  
a piece of coal is a diamond ring  
your soul is torn but your bird can sing  
not every pretty hero needs a Ho chi min  
(chorus)  
A hundred years ago  
stealing all the halos  
so your soul can know  
you made this rock and roll  
Thrill me like you used to(2x)
