

Gabrielle Aplin, Good Enough

Tell me how I can be good enough
I wanna be easy and open like you
The way that you navigate is effortless
The way that you talk and the way that you move
I love how you dance around your issues like they're just
Flickering light shining, guiding you through
Wish I was more like you

When I hit a wall I can't get around
You always see it in a way I can't see
You tell me it's there for me to lean on
And bail on your plans just to rest there with me
I love how you rise above the water right when I'm
In danger of swimming out a little too deep
You're all I see

'Cause you're more than just someone
After all I've said and done and all you do
I just wanna be good enough for you
Good enough for you

On Saturday night, when you came around
You danced on the table to your favourite tune
And just as I thought you were coming down
You pulled me up and I was moving with you
You take me to places that I'm too scared to go to
Miles away in the same old room
How'd you do what you do?

'Cause you're more than just someone
After all I've said and done and all you do
I just wanna be good enough for you
Good enough for you
Good enough for you
Good enough for you

'Cause you're more than just someone
After all I've said and done and all you do
I just wanna be good enough for you
