

Gabrielle, Give Me A Little More Time

You tried your best to show me
That you really cared
Said if there were days I was lonely
Just call you - you'd be there
You tried your best convinced me
That you understand
And if I needed someone to hold on to
You wanted to be the man
Then I knew it was true
All the feelings that I had inside for you
I could not deny
Though many times I tried
Give me a little more time
I need to make up my mind
Cos you know I'm in two minds
I wanna be more than your friend
Ooh I just can't pretend any longer
Feelings getting stronger
Give me a little more time?
You've been there when I've needed
You've never let me down
I just don't know how I'd cope
Without you being around
Feelings have grown between us
Though friends we have been
Don't you think it complicates things
Or is it just me
Then I knew it was true
All the feelings that you had
I shared them too
I could not deny
Though many times I've tried
Give me a little more time?
Give me a little more time
I need to make up my mind
