

# Gabrielle, If I Walked Away

After all is said and done  
How can we carry on?  
And after what you've done to me  
How did you think that i would be?  
You had your chance  
When i took you back  
Now we're here again  
and your hurting me  
Chorus  
What would you do?  
What would you say?  
If you found me gone  
If i walked away  
What would you learn?  
Would your heart be burned?  
What would you do babe?  
What would you say?  
If i walked away  
All the promises you made  
They never saw the light of day  
Many times you you said you'd changed  
I was a fool to wait  
You had your chance  
When i took you back  
Now we're here again and you're hurting me  
(Repeat chorus )  
Now that you've been pushing me I'm close to the edge  
I'm losing all my patience  
I have nothing left  
We've been here before  
I can't take it no more  
I've tried  
(Repeat chorus )  
(What would you do?)  
If i walked away  
(What would you say?)  
If i walked away  
(What would you do?)  
Tell me would you feel the pain? (feel the pain?)  
If i walked away
