

# Gabrielle, Tell Me What You Dream

She turned the key, opened the door  
Was he there she wasn't sure  
She didn't want to fight no more  
She had good intentions  
In that moment face to face  
She saw the look upon his face  
She held him in a tight embrace  
There was warm affection

Took a while before she spoke  
There were things she had to know  
Compose herself and she said  
Baby

[Chorus:]  
Tell me what you dream, what you see  
Tell me how you feel, oh yeah  
Tell me what you dream  
Will you share it all with me  
What you dream  
Baby you can talk to me

They agreed to meet halfway  
They would take it day by day  
He didn't want to lose her twice  
That would cut him like a knife  
He decided then and there to reveal his inner fears  
He'd always loved her from the start  
It was time to give his heart

Took a while before he spoke  
There were things he had to know  
Compose himself and he said  
Baby

[Chorus]

Tell me what you dream  
What you see  
Tell me how you feel, oh yeah

[Chorus]
