

# Gadjits, Hospitalized (Live)

(stage banter:

Uh.. like for example, if people who don't want to dance can like,  
take their lazy asses back,  
and people who want to dance can take their asses forward.  
Thank you...This song's called Hospitalized. It's about hospitals.)

Well I hold on tighter and tighter like a baby  
and I think that maybe you should put up with my shit a little bit longer, yeah..  
Well I tried, oh baby, I tried, tried to shut it and hide  
but reality closin' in on me, yeah...

You used to love me and I loved you  
You're getting sick of me not being over you  
I got a problem on my hands and I gotta be hospitalized, yeah...

I used to love it when you held me near  
And every time I think about it, well, it brings me to tears  
I got a problem and I gotta be hospitalized, yeah...

(chorus)

Lovesick over you and I gotta be hospitalized  
Need you by my side and I gotta be hospitalized (x2)

Well I stumbled home that night with the smell of puke in the air  
I'm missing all my friends and you're not there  
I gotta problem and I gotta be hospitalized.  
Bitch!

I used to love it when you held me near  
And every time I think about it, well, it brings me to tears  
I got a problem and I gotta be hospitalized...

Well-a.. H-O-S-P-I-T-A-L-I-Z-E-D! Hospitalized! (repeat)

(chorus)
