

# Gaelic Storm, Before The Night Is Over

Some take their hope, and hide it away  
It burns in the darkness, like gold in a grave  
There's a spark inside, that can't be concealed  
No hurt is so secret that it won't be healed

Chorus:

Before the night is over  
Make your heart an open door  
Then all we hold inside us  
Won't divide us any more  
Before the night is over  
And the time we have is done  
Before our courage fades away  
Let our hearts be bound as one

I've lost my way, when nothing is clear  
I've been afraid to love, then I hurt what I fear  
I can face the night, find strength in your eyes  
not afraid to fall, not afraid to rise

Chorus

Chorus repeat and fade
