

# Galactic Cowboys, Another Hill

Another hill  
Another monster we can kill  
A broken will  
That tells me we are not alone  
And it's comforting to know

It makes no difference  
If it's said a million times  
The word of life runs through our veins  
Never forsaking me  
You've brought me to my knees  
And I will love you.

Another hill  
Another hard to swallow pill  
A void to fill  
That tells me we are not alone  
And it's comforting to know

You never leave me  
We're not alone.
