

Galactic Cowboys, Ranch On Mars

Different places, different names
Peculiar people just the same
We are brothers in our hearts
Though we've traveled far away
Another galaxy to play
Up in space we'll never part

Someday we'll live among the stars
Maybe own a ranch on Mars

Come in, come in mission control
Give us guidance for our souls
With eyes that scan the universe
No more talking time to land
You give me hope you understand
Our future lies beyond this earth
