

Galactic Cowboys, Trip On Love

Christian soldiers stumbling row by row
Blindfolds tied and deepest fears in tow
In this tangled maze of mortal dreams
Sometimes it's too hard to believe

I can't stand by and watch a friend fall down
I can't stand by and watch a friend trip on love
Trip on love again

Somewhere a voice says the least hurtful way
But that can't explain away the pain
She can't unlearn, there's no return
So don't forget to watch your step

I just can't stand by and watch my friends
Trip on love
