

GandahaR, Wer1 (We Are One)

The mornin' with cryin' us
Another the day us cool us as
They sad some she would not guy
My loneliness heart in to the lie
Without her I've lost my soul
My love became and empty world
It takes me like every night
Pretending things the could of pride
It's call me and everywhere
I see the lie but your not vain
I was spellings so deep inside
My briny tears and sorry nice
It hard to belive then you gone
There was be something in her eyes
There was be something you can high
The nice up mornin' when we are one
