

Gandharvas, Landing

We landed -
Me on my head, and you were on your feet.
Let's turn it around - try over again
We're stranded -
You on your back and i was on my knees.
Let's turn it around - try over again
You shouted:
Won't something come to make me understand.
Let's turn it around - try over again
I doubted:
That came so fast - it's tough to apprehend.
Let's turn it around - try over again
Maybe this time something'll happen.
For now, I deny way too much,
You've got me wasting all this time
And I swear I don't know when
All these troubles are coming to an end.
But what you say sounds all right by me
So i'm spending all my time with you.
