## Gandharvas, Landing

We landed -Me on my head, and you were on your feet. Let's turn it around - try over again We're stranded -You on your back and i was on my knees. Let's turn it around - try over again You shouted: Won't something come to make me understand. Let's turn it around - try over again I doubted: That came so fast - it's tough to apprehend. Let's turn it around - try over again Maybe this time something'll happen. For now, I deny way too much, You've got me wasting all this time And I swear I don't know when All these troubles are coming to an end. But what you say sounds all right by me So i'm spending all my time with you.
