## Gang Starr, So wassup

| So | wassup? | You know | we can't be | havin that S | Son there's | rules you're | supposed t | o go by, ar | nd this |
|----|---------|----------|-------------|--------------|-------------|--------------|------------|-------------|---------|
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
|    |         |          |             |              |             |              |            |             |         |
