

# Ganggajang, From The Top To The Bottom

(Callaghan/Stapleton)

Two's company, Three's a crowd  
Any more and it's getting out of hand  
There must be order we must be organised  
Systems of supply and demand  
We need a structure to carry on  
What we need is a system of control  
Trouble was the trouble is  
There's lots in agreement but few in the know

Red lobby, blue lobby, red lobby, blue lobby  
Swings to the left, swings to the right  
Till there's a balance, a balance of might, 'cos it  
It filters down from the top to the bottom  
You mightn't like it but you can't seem to stop 'em  
It filters down from the top to the bottom  
You mightn't like it but you can't seem to stop 'em

Don't plan ahead don't look behind  
Just survive hour by hour  
Don't think, you don't have to plan  
Pay homage to the central power  
Once in a while we get a change  
Start again, try something new  
Trouble was the trouble is  
All the many get told by the few

Economy, military, religion to they  
Swing to the left, swing to the right  
To the rhythm, the rhythm of might, 'cos it  
It filters down from the top to the bottom  
You mightn't like it but you can't seem to stop 'em  
It filters down from the top to the bottom  
You mightn't like it but you can't seem to stop 'em

Stop 'em!

Economy, military, religion to, they  
Swing to the left, swing to the right  
To the rhythm, the rhythm of might, 'cos it  
It filters down from the top to the bottom  
You mightn't like it but you can't seem to stop 'em  
It filters down from the top to the bottom  
You mightn't like it but you can't seem to stop 'em  
It filters down from the top to the bottom
