

Ganggajang, Give Peace Another Chance

(James/Callaghan/Stapleton)

All around us then the bells were ringing
The voice of freedom rang across the land
The walls that divided us were crumbling
We seemed to have the whole world in our hand

The call went out to everyone,
Every person old and young

Oh you got to Give Peace Another Chance
Give Peace just one more chance
At least, give Peace another chance

All around us now the tables are turning
We can reach what seems so near at hand
We can break these chains we drag behind us
We can find the future in our hands

The call went out to everyone,
Every person under the sun

Give Peace Another Chance
Give Peace just one more chance
Give Peace, Another Chance
At least, give Peace another chance

The call goes out to everyone, every person old and young,
There's got to be a better way, can't you hear them when they say,
Give Peace Another Chance
Give Peace just one more chance
Give Peace, Another Chance
At least, give Peace another chance
