

Ganggajang, Time (And The Mandelbrot Set)

(M.Callaghan)

Time

it telescopes through a lens of regret
The patterns all re-emerging
as we cruise the mandelbrot set

Space

surrounds us all it's what we're looking through
The distance between two points
depends on your point of view

Life cycles spinning round
to the past the future's bound
Yeah, bound and intertwined
just like I'm lost in time.

Love

surrounds us all,
it's what we're looking for
No matter how much you find
you know you need a little more

Some days you can't win
sometimes you just can't get started
Drifting along on a sea of dreams on a
course that's already been charted
you know that

The past is a gift to us all,
helps us all avoid the falls
The walls that we can't define
in our minds,
lost in time
Cruising the mandelbrot set
Cruising the mandelbrot set
The closer you look
the further you get, when you're
Cruising the mandelbrot set
The closer you look the further you get yeah

Life cycles spinning round,
look to the past, the future's found
The past is a gift to us all,
helps us all avoid the fall
The things that we find, lost in time

Cruising the mandelbrot set
Cruising the mandelbrot set
The closer you look
the further you get, when you're
Cruising the mandelbrot set
The closer you look the further you get
