

Garbage, Enough Is Never Enough

Searchin' for fun
Where do you go?
Got your leather boots on
What do you know?

And they're playing garbage on the radio

Enter the dark
You wanna run
Enter the night
Where nobody knows you
Where the boys are and everybody's high

If enough is never enough
And you're down at heart
If the world is getting you down
Then come with us

If enough is never enough
And you're down at heart
If the world is getting you down
Then come with us

Back to the bar
Where the place is slamming
All the pretty queens and the sluts are dancin'
And the conscience of politicians sly
All sweat and lust and filthy habits
All the wannabes are going to sell their package
At the carnival of lonely broken hearts

If enough is never enough
And you're down at heart
If the world is getting you down
Then come with us

If enough is never enough
And you're down at heart
If the world is getting you down
Then come with us

If enough is never enough
And you're down at heart
If the world is getting you down
Then come with us

Come with us
Come with us
Come with us
Come with us
