

# Gardenian, Do Me Now

Get me done  
Clear your arm for another shoot  
Inject me!  
Feel the tension that chills your bones  
your step belongs to me

So don't face me / so don't face me  
So don't confront me / Don't confront me  
So don't face me / so don't face me  
So don't confront me / try to do me now

I am the one who makes your stands  
I am the nightmare they tried to hide  
So keep me close to your heart  
You never thought it could hurt so bad

[repeat chorus]
