## Gardenian, Mindless Domination

You're destroying everything Everything you touch When you are here in me This is how close you'll get with me, I'm like the criminal Insane with an urge of rage in me I shouldn't still be free

The voices in my head twist my mind groundly Paralyzed my fears of my own judgement

Not standing on my own controlled by a voice in my head Losing the control of life can't decide about my own visions of life So sickened of the lies

The voices in my head twist my mind groundly Paralyzed my fears of my own judgement Cause of what they say no matter what Still I hear their screams, terrified, afraid

## Grow

A piece is getting sicker my mind is contaged Insane, prevailed

It could happen to us all in a day Falling down into my crypt The voices in my head will stay free

## Voices!

The voices in my head twist my mind groundly Paralyzed my fears of my own judgement Cause of what they say no matter what Still I hear their screams, terrified, afraid
