

Garfield, Hold On To Your Dreams

You got to hold on to your dreams, baby baby
Hold on to your dreams, never let them go
You got to hold on to your dreams, sweet emotion
Hold on to your dreams each and every day

Anytime you feeling blue about the things you do
It's your turn baby to do it right
Time is never standing still
I'm sure today you will be closer to me, close to me

Now it's time to make a change, forget about the pain
Feel the joy inside, inside your life
With a smile upon your face
Hold on to your dreams, don't let them go
Do it right.
