

Garou, All The Way

I wish I'd know you better
Then it wouldn't be so hard
Face to face we're heads up
Our future's written in the cards
I bet it's gonna cost
For me to buy your trust
I wanna go all the way
But something tells me that won't happen
You're starting to take this game too far
I wanna go all the way
But going there would leave me broken
Heading up straight into contradiction
I gotta stop gambling that sweet addiction
I guess you got me blind
When you led me by the hand There can't be 3 of this kind
Only you and I can stand
You called me
If you raise me up I am all in
I wanna go all the way
But something tells me that won't happen
You're starting to take this game too far
I wanna go all the way
But going there would leave me broken
Heading up straight into contradiction
I gotta stop gamble that sweet addiction
There's just one too many consequences
Down the river it can break
If you just pretend and still believe it
You will lie down with your faith
If you really wanna play
Together we can make it happen
You shouldn't push this game too far
I wanna go all the way
But going there will leave me broken
Heading up straight into contradiction
I gotta stop gambling that sweet..... addiction
