

# Garth Brooks, Wild As The Wind

Johnny grew up on the dark side of the law  
Living in the shadow of a light he never saw  
Rosie came around in the way that good love does  
Just when you're looking elsewhere for the thing that never was  
Wild as the wind'

Wild as the wind is

So they teamed up and they traveled all the way  
Looking for forever for every yesterday  
She brings him hope in the way that angels do  
Taking him to heaven in ways he never knew

Wild as the wind  
Wild as the wind is  
Wild as the wind is love

Wild as the wind  
Every so often he gets a stray look in his eye  
But she knows how to hold him without ever asking why

Wild as the wind
