

# Gary Allan, As The Crow Flies

well, a gypsy lady once told me  
son, you got the kind of soul that's gotta be free  
it ain't what you want, it's just what you need  
like a black bird baby you were born with wings

and as a crow flies, so do I  
I can be gone in the blink of an eye  
next town's never too hard to find  
it's never that far as a crow flies

well, I set it down in tennessee and got a little juice  
but I caught myself a case of them nashville blues  
I met a little girl that tried to tie me down  
so I pointed it to hollywood and put the hammer down

and as a crow flies, so do I  
I can be gone in the blink of an eye  
next town's never too hard to find  
it's never that far as a crow flies

I live on the run, I love on the prowl  
I never was much on hangin' around  
I never look back, I never look down  
I never thought once about turnin' around

and as a crow flies, so do I  
I can be gone in the blink of an eye  
next town's never too hard to find  
it's never that far as a crow flies

and as a crow flies, so do I  
I can be gone in the blink of an eye  
next town's never too hard to find  
it's never that far as a crow flies
