

# Gary Allan, Baby I Will

If he don't dream 'bout you night after night  
If you don't think that he's treatin' you right  
If he don't worship the ground that you walk on  
It's easy to see somethin's wrong

I can't stand to see you cry  
Over love that just ain't real  
If he don't love you  
Baby I will

If he don't whisper sweet words in your ear  
Things a good woman loves to hear  
Why can't you see what he's puttin' you through  
How long can your heart beat feelin' so blue

I can't stand to see you cry  
Over love that just ain't real  
If he don't love you  
Baby I will
