

# Gary Allan, Ring Ring

I remember the smile on her face  
When I put you on her finger  
I felt the love in her sweet embrace  
And all the happiness you brought her  
I still see it all in my mind  
The way she loved me  
All the time

[chorus]  
Ring, ring  
You ain't nothin' but a thing  
Yesterday we used to hold her  
Littel band of gold  
With a little blue stone  
I'm sure gonna miss the hand  
That you were on

She'd wear you when we were together  
She'd wear you when I was gone  
'Cause we believed in love forever  
But I guess we were wrong  
Now she's found somebody new  
She doesn't care about  
Me or you

[repeat chorus]

Wish I could put it all behind  
But I can't keep her off my mind  
Oh, oh  
What can I do?

[repeat chorus]

Little band of gold with a little blue stone  
Oh..
