

# Gary Allan, The Devil's Candy

Smoky old bars  
Bright neon lights  
And good ol' boys and girls of the night  
An ice cold beer and a good shot of brandy  
I've always had a sweet tooth for the Devil's Candy

Chorus:

And I've fought it all my life  
And the battles now a war  
But I'll get up tomorrow  
And I'll fight it all once more  
I wanna do what's right  
But I'll never understand me  
I've always had a sweet tooth for the Devil's Candy  
Well I've played the cards  
And I've rolled the dice  
Well I gave up heaven for a fool's paradise  
Once lost an angel when a bad girl was handy  
I've always had a sweet tooth for the Devils Candy

Chorus:

And I've fought it all my life  
And the battles now a war  
But I'll get up tomorrow  
And I'll fight it all once more  
I wanna do what's right  
But I'll never understand me  
I've always had a sweet tooth for the Devil's Candy  
I wanna do what's right  
But I'll never understand me  
I've always had a sweet tooth for the Devil's Candy  
Yes I've always had a sweet tooth for the Devil's Candy
