

Gary Barlow, Before You Turn Away

oooh,
whoa oh ho,
oooh,
whoa ho yeah,
mmmmm,

Take a look,
at all we have,
I believe,
it still could last,
we've always found our way before,
I've never believed in closing doors,
I think the answer is deep in our hearts,
you think the answer is being apart,

So before you turn away from me,
before your heart is running free,
there's a million reasons you should stay,
look around you baby now,
before you turn away,
you turn away,

Let me ask,
before you choose,
is what you'd gain,
more than you'd lose,
we've worked so hard to get this far,
only to find another start,
I think the answer is still unknown,
you think the answer is being alone,

So before you turn away from me,
before your heart is running free,
there's a million reasons you should stay,
look around you baby now,
before you turn away,

whoooo hoooo,
you're turning away,
whoa ho yeah,
baby,

I think the answer is deep in our hearts,
you think the answer is being apart,
whooo ooh,

So before you turn away from me,
before your heart is running free,
there's a million reasons you should stay,
look around you baby now,
before you turn away,
so before you turn away from me,
(fade out)
