

Gary Barlow, Meaning Of A Love Song

If a loving start
That's the meaning of a love song
To take the pain away
It's the meaning of a love song
To help you through each day

Walk into this sound of music and memories
So close to your heart
It's strange the way your mood
It swings and it changes as each song starts
Then the words change fast to slow
While the melody may start to go
And the beat becomes in motion
Into your heart, let the loving start

Turn the music down
Don't let it take over, don't let it decide
If your happy or sad
Together or lonely front or behind
Let the music play its song
And if it is our lives will move on
Since a goal that I believe in
Proves that only to get what you need

It's a feeling
You wanted, the pain away
It's the meaning of a love song
The secret of a love song
Oh move it's love, oh move it's love
To take the pain away
The meaning of a love song
Oh move to love
To take this pain away
That's the meaning of a love song
