

Gary Brooker, Within Our House

(Brooker / Reid)

Within Our House
love and grace
fires burn so bright
through darkest night
Throughout our lives
so much to learn
you read the signs
be our guide at every turn
Lift your voice
and you will know the tune
something old something new
Come join us! Come join us!
Within Our House

Be of good cheer
you are not alone
welcome to your joyous feast
let troubles cease
this day of peace
Lift your voice

and you will know the song
live with us and you'll belong
give thanks and pray
you found your way
welcome to our house

Within Our House
love and grace
throughout our life
so much to learn
Take comfort here
you are not alone
give thanks and pray
you found your way
Lift your voice in harmony
feel the strength enrich thee
Come join us! Come join us!
live in our house
within our house
live
Within Our House
