

# Gary Glitter, A Little Boogie Woogie (In The Back

Alright, Tonight's the night  
The night I make my mind up  
It's time to get it right  
Just like we did before

Tonight's the night alright  
And thought I know  
you ain't quite sure  
you're getting more excited

Cause you don't know what's in store  
Alright, you know the truth now  
When I'm inclined  
I usually find

A little boogie woogie In the back of my mind  
When I'm inclined  
I easily find  
A Little boogie woogie In the back of my mind

Today's the day  
I lay it on the line  
The way to make you stay  
and keep me company

Its time to get my way  
cause night time  
is the right time  
When I'm feeling I like my action guaranteed

Alright, I feel good  
Come on, tonight  
When I'm inclined  
I usually find A little boogie woogie  
In the back of my mind

When i'm inclined  
I easily find  
A Little boogie woogie In the back of my mind

A little Boogie Woogie Boogie Woogie.....
