

# Gary Jules, Pills

I've taken all my pills  
but I'm still not sleepy  
tried to trick myself into thinking  
that I'm not awake  
that it's only a dream  
put that cigarette out  
don't ask me no questions  
salome dancing on my wall  
and the shadows on the floor  
look so warm from here  
I've seen it all before  
just one little lie  
but the difference is this  
it meant the world to me  
don't ask me no questions  
&quot;take the wheel&quot; she said &quot;as I wander&quot;  
we could leave this town  
I've got all I need: spirit, hope and joe  
but no one knows me  
I think I lost my pills  
guess I'll take my chances  
I'm looking at the telephone  
but nothing happens  
I am well aware  
that the morning is near  
put that radio down  
don't ask me no questions
