

Gary Moore, Key To Love

I never realized that you were in pain.
Wanna help you honey, let me see you again.
Hurts my soul baby, when I find you're feeling rough, yeah.
Life is so bad baby,
when do I find the key to love?

The smile on your face wipe away those tears.
Life is gonna get better as you live through those years.
Hurts my soul baby, when I find you're feeling rough, ooh.
Life is so bad baby,
when do I find the key to love?

Somewhere in this world, the one you're waiting for,
gonna come along baby, turn the key to your door.
Hurts my soul baby, when I find you're feeling rough, yeah.
Life is so bad baby,
when do I find the key to love?

When do I find the key to love?
