

Gary Numan, Emotion

Look up
Look down
I've seen it all before
I need emotion

Look left
Look right
I've tried it all before
I need emotion

Say nothing
It's over
I sold my soul
Forever

She's tempting
Sex tension
It could be the wrong move

One question
One answer
I don't need
Exposure

I don't know
The slogan
New fashion kills me

Fashion
Tear it up
It don't mean a thing so
Fashion
Tear it up good

Touch me
Picture this
It don't mean a thing so
Touch me
Life is cruel

How did this ever get serious?

One night
One touch
I've used them all before
I need emotion

One lie
Too much
I've heard it all before
I need emotion

I'll show you
Religion

Some people
Disgust me

Listen to
Opinion
I'm in a glass house

'I've been sick'
She whispers
Abandon
Nostalgia

Remember
My picture
I only work here

I need emotion
