

Gary Numan, I Still Remember (7" Version)

Look at me I'm crying
I wish my tears would show
I'm surrounded by a room
That I've been in for years

How can they do this
How can they do this to me
How can they do this to me again

Have you seen all the pictures
Have you seen things they do
Please help me
Love doesn't live here
Take a good look and cry

I remember

I'm broken
And don't hurt and show
No one can hear
Time runs out
Wont someone come
All that I need is you

Look at me I'm dying
