

# Gary Numan, Listen To My Voice

Listen to my voice  
And please try to understand  
The one you call Messiah is a lie

You are not the plan  
And your beginning to annoy  
You are just a game and It has won

You will never see  
The places promised by your faith  
You will never know eternal peace

The God you love is gone  
He lies broken by your shame  
The thing that took His place already died

It will send Angels  
Send black Angels for you

I am just a voice  
That no-one else will hear  
Only you are pure enough for truth

You must write 'The Book'  
And then tear away belief  
Only you can save the light of man

It will send Angels  
Send black Angels for you
