

# Gary Numan, Love Needs No Disguise

She dances  
He watches  
She sighs  
Remember  
Love needs no disguise

In motion  
That cannot deny  
She's saying  
Love needs no disguise

And if the park gates are closed  
Remember we toured the skys  
And if the 'friends' all go home  
You know love needs no disguise

He dances  
And we realised  
Remember  
Love needs no disguise

In simple embraces  
They lie  
In darkness  
Love needs no disguise

And we can lock all the doors  
Forget the reasons and fame  
There's no deceiving inside  
You know we'll all be the same
