

# Gary Stadler, Fairy Nightsongs

Dancing a spiral we sing unaware  
On fairy night wings our songs fill the air  
Making a circle of magic and light  
Watched silently by the Fey of the night

Our hearts full of love and our arms open wide  
We hold the key to the fairies delight  
Song in our hearts belong in the air  
The words of our wisdom we bring forth to share

The songs in the night  
As we dance 'round the flame  
The Fairy Nightsongs are never the same  
The words from our lips as we sing for the night  
Impart to the Fey our hearts truest sight

Sounds of the forest in sweet harmony  
We give the gift of our song to the fairy  
Dancing a spiral we sing unaware  
The fairy night wings our song fill the air

The songs in the night  
As we dance 'round the flame  
The Fairy Nightsongs are never the same  
The words from our lips as we sing for the night  
Impart to the Fey our hearts truest sight

Ahh.....

Dancing a spiral we sing unaware  
On fairy night wings our songs fill the air  
Making a circle of magic and light  
Watched silently by the Fey of the night

The songs in the night  
As we dance 'round the flame  
The Fairy Nightsongs are never the same  
The words from our lips as we sing for the night  
Impart to the Fey our hearts truest sight
