

# Gates Of Ishtar, Wounds

Time, What is time?, the tale of pain and death, those moments of our lives  
Pain never dies, you only suffer more when death stares into your eyes  
Wounds never heal, the scars are there to stay as the memory remains  
Lost never found, your soul is led astray when your body fades away  
Never the same again, scarred by the years of pain  
Never the fool again, scarred by the years of pain  
To be dead is to always live in their memories  
and walk alone on the path of grief  
To be dead is to always scream at the silence  
forever trapped in a place of pain  
Pain, what is pain?, the tales are the pain, the moments never die  
Dead are the lies, the truth is here to stay as the liars fades away  
Lost, never found, souls are led astray, their words to be slain  
Pain never dies, you only suffer more when death stares into your eyes
