

Gaudi, Sweet Sung Song

Over now
It's taking me
Over now

Sweet Sung Song of the traffic flow
Round my head I need to know
Please be mine forever

I know myself at the fading lights
Baby hold me said to the night
Awake and change forever

Peace in the world
A love in the sky
Is taking me over
And I know it's here
I know it's right

Over now
It's taking me
Over now
It's taking me
Over now
And I'm eternally yours

I know myself at the fading lights
Baby hold me said to the night
Awake and change forever

Peace in the world
And love in the sky
Is taking me over
And I know it's here
I know it's right

Over now
It's taking me
Over now
It's taking me
Over now
And I'm eternally yours

Complicated
I don't mean it
Golden chains are all around

Complicated
I don't mean it
Golden chains are all around

Complicated
I don't mean it
Golden chains are all around
