

Gavin DeGraw, Get Lost

I've had days
Of wine and women and wine
Spending all my precious time
I wish I could press rewind
But it's just play
Feels like fast-forward some days
Maybe it's just a phase
Maybe I'm losing my mind

Oh, pretty hair
Listen what I'm thinking

I wanna get lost with you
I wanna forget where I came from
I wanna get lost with you
Will you help me along
Floating on an island with you
I wanna get lost

You're the type, that won't stop til it's done right
Won't let him out of her sight
Don't mind putting up no fight
And that's the way I like it
Don't mind when a man gets excited
Sometimes you even invite it
Keeping me up all night

Oh, baby
Listen what I'm thinking

I wanna get lost with you
I wanna forget where I came from
I wanna get lost with you
Will you help me along
Floating on an island with you
I wanna get lost

Oh, baby
See you're off the coast
Working it out
Showing on through
Building a sandcastle
And a big old sandbox
Oh baby, baby
Listen what I'm thinking

I wanna get lost with you
I wanna forget where I came from
I wanna get lost with you
Will you help me along
Floating on an island with you
I wanna get lost
Floating on an island with you
I wanna get lost
Floating on an island with you
I wanna get lost
