

# Gavin DeGraw, Let It Go

I can't live without you  
Set my goals around you  
Takes a little extra time  
But it all works out

You're a shining ember  
I'll be shining armor  
Just look up into my eyes  
I won't let you down

And I'll always be here  
Yes, I'll always be here

[Chorus]  
Let it go  
Settle into me  
Let it go  
Let it all go

Except for me  
I'm the one you found  
Just hold on  
Hold onto me now

Why don't we play hooky?  
We could both get lucky  
Better to get lucky than to go to work today

We don't have to shower  
You won't wait in traffic  
Take our daily panic and we'll put it all away

And we'll always be near  
We should always be near

[Chorus]

Don't you know you're the one for me  
After all, anyone can see
