

# Gavin Friday & The Man Seezer, Falling Off The

Happiness is a place in the sun  
Says dickie boy with a warm gun  
Charlie darwin I believe you now  
Put the monkeys in a uniform  
Stormin' norman up on the hill  
Twenty rounds with georgie b.  
Let 'em choke on coke 'n' oil  
Sweet revenge just one calorie  
"i'm falling off the edge of the world  
Aah! floating out to who knows where?  
I'm falling off the edge of the world  
I'm calling out... there must be something more? "  
Babe, I'll catch your fall.  
I hear the queen has a cowboy hat  
Tea, crumpets, 'voodoo chile'  
Rock 'n' roll is a pussycat  
Dead and buried in the u.s.a.  
Cheap thrills, cupid heartaches  
Hooked on smack and daffodils  
Candy man, candy man can...  
Shoo be doo wop.. his kiss can kill  
"i'm falling off the edge of the world  
Aah! floating out to who knows where?

I'm falling off the edge of the world  
I'm calling out... there must be something more? "  
Babe, I'll catch your fall.  
See a vision of a world gone green.  
Pop a pill with my ovaltine  
Call a priest, grab a crucifix  
I'm not religious, I'm insomniac.  
I close my eyes  
It won't go away  
I dry my eyes  
Big boys don't cry  
When the world is rock 'n' shake  
I fall and break...  
When the world is spinning 'round  
I tumble down...  
Hold me steady, hold me close  
"i'm falling off the edge of the world  
Aah! floating out to who knows where?  
I'm falling off the edge of the world  
I'm calling out... there must be something more? "  
"i'm falling off the edge of the world...  
Ah! floating out..."  
"i'm out of here"...
